Anticipated Struggles	Prompting Questions	Notes
Not knowing how to get started	•What do we know? •What are we trying to find out? •How can we figure out what number Normandi needs?	
Lack of representation on paper/unsure of how to show their strategy	•How did you find the card that Normandi needs? •How could you show that on your paper? •What number did you start with? •Did you add or subtract?	
Unsure how to label equation	•What number shows the card Normandi started with? •What number shows the card she needed from Felipe? •What number was she trying to make?	
Misconception: Adding 10+3 to equal 13	•What does the 3 represent? •What does the 10 represent? •Why did you add them together? •What does the 13 represent?	
Misconception: Incorrect counting	•Did you check your work? •Did you do your most careful counting? •Does your answer make sense?
